

Do not lessen Indiana's Telephone Privacy Act. Since I have been on the "No call List" I have my phone back? I am a nurse who works nights and has a new baby. I should not have to turn MY phone off in MY house because I was getting over 6 calls a day for items and services I DO NOT WANT. But I wanted my family to be able to get me in case of emergencies while I was sleeping during the day. What a time waste it was answering all those unwanted calls! I hated it! Now I only get a call or two a week. It has really helped my life and my stress level with the safety of knowing that my family can get to me, but I can sleep on after working 12 hours through the night without those harrassing calls! This is MY PHONE. Do not lessen the Telephone Privacy Act. I have a right to peace and quiet in MY HOUSE!!! Thank you for you time. Amanda Shea
